The Complete Small Business Marketing APP Explained

It's an easy-to-use smartphone APP created to overcome the marketing issues suffered by many small businesses. It integrates and simplifies the secrets and resources required to make small businesses thrive and allow owners to focus on other areas of their business.

How Does the APP Get Results?

- Builds a highly responsive customer tribe. These customers offer a lifetime of sales opportunities and enable the business to optimise earnings per customer and deliver a customer experience beyond the capability of your competitors.
- We use the world's top points and rewards system to give your new and existing customers an irresistible incentive to return repeatedly. The APP currently generates around 1.3m* revisit customers to small businesses monthly.
- Boosts monthly earnings in multiple ways including increases in revisit spend by up to 67% * per visit.
- Our APP includes a referral facility that delivers unlimited new customers to your business for just a few euro. Both parties receive points or rewards that are activated when the new customer completes a transaction.

Small Business Marketing – Simplified...

- Our award-winning APP runs on all mobile devices.
- Customers download your fully branded APP.
- Sign up is by phone number or email.
- Customers start earning points on purchases and other behaviours.
- With our guidance you set the simple reward targets and points qualifications.
- Points are exchanged for a choice of tempting benefits and rewards.
- Data is collected to enable selling to customer “preferences”.
- The app simplifies customers communications.
